MRS. BETTY WHITE, DOUGLAS MEMBER BOARD OF REGENTS, MAKES STATEMENT

Mrs. Betty White, a member of the board of regents of the Arizona university, returned Wednesday night from Tucson, says the Douglas high school, where she went last Monday to attend a meeting of the board, she said yesterday that the session was devoid of any friction of any kind and that the matters before the regents were adjusted in a satisfactory manner.

The controversy with the architect, J. B. Lyman, Jr., was adjusted in an agreeable way, and that incident, she said, was closed. Mr. Lyman approved the previous arrangement in regard to the purchasing of materials and supplies.

New Plan Agreed

This plan takes from him the purchasing power he heretofore has held, and to have the governor appoint a representative, who shall confer with Mr. Lyman in regard to the buying of all supplies, and that the purchases must be made by the university purchasing agent. It is understood that the purchasing agent will, without questioning the orders, make whatever purchases the governor's appointee and Mr. Lyman suggest.

The regents also stipulated that Mr. Lyman shall supply two complete copies of plans and specifications of all contemplated work, one to the regents and the other to the commission on public works.

Dr. von Kleinsmid Praised

Mrs. White said that the regents and Governor Hunt were unanimous in their approval of the administration of the affairs of the university under the direction of Dr. R. B. von Kleinsmid, and considered him one of the ablest and most progressive educators in the country. It is the aim, she said, of both the regents and the governor to give him every encouragement in the splendid work he is doing for the state.

One of the most interesting features of the meeting, according to Mrs. White, was a speech made by Dr. von Kleinsmid in which he praised the people of Arizona for the manner in which they had supported the university.

New Field of Work

"It was an eloquent speech of a sincere and brilliant man," she said, "and made a lasting impression on those who heard it. Arizona is lucky in having at the head of its greatest educational institution a man of his high mental attainments and training."

Mrs. White said that on May 1 a new field of work will be opened for the university. This will be the training of mechanics in various lines who will aid the nation in the manufacture and maintenance of supplies and weapons used in warfare.

Will Help Nation

About a year ago a law was passed providing for an extension of vocational training. It was a law, the need of which was so evident that it was supported by labor, capital and laymen alike. Under this law, the state of Arizona is entitled to \$15,000 from the federal government for the promotion of vocational education in agriculture, mechanics and home economics.

With the declaration of war, it became necessary for the Federal Board of Vocational Education to concentrate its activities upon the production of mechanics for war service for the war. The needs of mechanics were numerous. It is estimated that it takes four mechanics to keep one man in the trenches and for every man in the trenches it requires a mechanic in the army behind the lines, as an artificer of some sort.

Quick Training Needed

Due to the fact that this country has not given the proper attention to vocational education, there is decidedly

Legal Notices.

BISBEE COPPER MINING AND DEVELOPMENT CO.

Bisbee, Arizona.

TO THE STOCKHOLDERS:

Notice is hereby given that pursuant to resolution of the directors, a special meeting of the stockholders of the Bisbee Copper Mining and Development Company will be held in the office of the company in Bisbee, Cochise County, Arizona, on Wednesday, the 6th day of February, A. D. 1918, at 2 o'clock p. m.

The business to be transacted at said meeting will be:

First—Election of Directors.
